MMR / DEALER CHECKLIST

Demonstrate the Acoustic-Electric as a Working System

A repeatable store or trade-show check from the unamplified guitar to the final output.

Unplugged

Exact model / strings if known / tuning / posture / passage / room limitations.

Signal path

Pickup and preamp / power source / cable / DI or amplifier / initial settings / effects off or identified.

Checks

Individual string balance / repeated phrase / noise / each control / intended connection and operating level.

Handoff

Power and unplugging instructions for this model / required accessories / preparation / support / dated quote.

Repeatable result

Observed result / conditions / untested question / next controlled trial. Record trade-show facts separately from product observations.

Name / class or store: _____ Date: _____
